WELCOME!

Last year was a brilliant one for the charity - from celebrating the success of the projects we've supported to introducing our new charity patron, Chrissy. We also really enjoyed bringing everyone together for our combined AGM and Community Health & Wellbeing Awards evening. It was great to see so many familiar and new faces there, and we truly appreciate all the kind feedback. If you have ideas for how we can make it even better next time, we'd always be happy to hear from you.

As we move further into the year, we're especially pleased to see our funding for the Whitegate Station Café project coming to life. The project is helping young people with special educational needs build confidence, develop life skills, and make meaningful connections through weekly activities. You can read more about it below.

GRANTS NOW OPEN!

A new year, and brand new grant opportunities

Our grant funding window is now open once again, offering charities and organisations the opportunity to apply for support. If you have a new project that could benefit from a helping hand to get off the ground, check your eligibility by scanning the QR code below and submit your application today. **Please note, applications will close on Friday 27th March.**

WHITEGATE STATION CAFE

We're proud to be supporting the Whitegate Station Café 'SEN Friday' project. The project will be supporting local children with weekly activities designed to build their confidence and increase their life skills.

Meet the team!

Harry is one of our brilliant Trustees, who joined us in August 2024. He brings a wealth of experience in CRM, AI, and marketing, and is the founder of Wave Marketing. He's also a director at Ginger & Pickles. His expertise, insight, and energy are already helping us drive meaningful progress across the charity. When he's not shaping strategy, Harry loves spending quality time with his family (what a beautiful photo!) and getting out and about on his bike!
